be forgotten that the main interest of a college should never be forgotten by students and faculty.

On Friday evening, Hollins College honored the birthday of its founder, Charles Lewis Cocke, with its annual banquet, Miss Rachel Wilson, '12, presiding as toastmistress. The musical entertainment was Misses Margarette Hearsey, '74, Eleanor Wilson, '30, and Judith Riddick, '15. Among the guests was Edward Armistead Hearsey of New York.

Following three selections sung by the Choral Club, Miss Wilson read the telegrams sent to President Cocke by friends and alumni of the College. She then continued her speech: "Whatever a college wants to do, it cannot remain the same. Hollins must then look to the to-morrow. The past, however, must not be entirely thrown over, for there is some kernel of truth in all traditions. Like Mme. de Staël, let us break the barriers separating us from those speaking the truth. "If we think of college as a place where the only thing to be gained is the social contact, we are seeing only the peripheral around the truth. A college is great in proportion to its good students and able faculty. The administration will take care of the faculty but it is for the students to make their ideal, their achievement. When a person learns to think she has freedom and truly lives. College should center around girls of national and international intellectual interests. Let us develop the exchanging of opinions about the world we must remember that college is a re-

Announce Essay Contest For Virginia Students

The Committee of Prize Essays of the Colonial Dames of America in the State of Virginia has announced an essay contest, the subject to be "Hensicropolis and the College." A prize of fifty dollars ($50.00) or its equivalent in a gold medal, is offered for the best paper written by a student from a standard college for women in Virginia. All entries must be typewritten on standard paper (8½ x 11) and sent to the committee not later than May 23d.

There is no limit to the length of the paper. The committee asks for a thorough "well annotated account, not merely a recasting of a newspaper article or a chapter from a book." As far as possible, information should be secured from original sources.

Anyone interested in this contest may consult Miss Scott, Professor of History, for further information.

**WHY STUDENT GOVERNMENT?**

If we should attempt to write this question once in a while, and answer it intelligently, we must first of all commit it to nature. Our present Student Government is a result of the evolutionary experiement by the students. It exists only for our own good. In other words, if we cannot play this game squarely, we are not worthy to live inside of it, first of all, actively by being our own and not secondly by being aware of our own importance as a part of this universe. It is not enough if it is not greed well and will fit, will continue to be a part of the universe. In so far, we can pay our debt to Student Government by using our influence to make other people aware of their importance as a part of the universe. We have to be... (Continued)

**SOPHIA AND FACULTY GIVE DERIVED PRODUCTIONS**

The Sophomore Class gave a clever little entitled, "Sophie's Monday, A Conception of Student Government" at the Student Faculty in the Little Theatre on Thursday, September 26.

The Sophomores proved themselves not only as a versatile group of women, but as a veritable force of women. As the same, they were the students of the male in the current. The Sophomores understood the use of their lights until twelve o'clock every night, and their presence was not a wonderful conciseness. And why? Surely by the time we are old enough to enter college and are expected to act as college students, we should be seen the 11/20 of an hour at night. Some say it is better to know that our health to have a lot of light. So it is--the right very! We have, we must be, above all, able to add to or subtract from its total awareness--or their reason for existence. As someone has said, "nature is an attempt to explain phenomena to ourselves according to its rules, we never experience, and of our active part of Student Governments--or at least we are curious to know them and expect a flawless system. Student Government is the product of the operation of the school. Our present constitution and our members are the school's staff, who offer to the students a set of rules and figures as follows, to wit.

**Vocational Opportunities Open for College Girls**

To students who are considering the choice of a career, Vocational Guidance offers information about new vocational opportunities for girls. Vocational Guidance also assists girls in planning for their education and helps them to choose the type of work which is best suited to their abilities, interests, and ambitions.

There are many opportunities for girls in the fields of engineering, business, and medicine. There are also opportunities in the fields of science, art, and music. Girls who are interested in these fields should consult their vocational counselor or Vocational Guidance.

**The Sad Plight of the Bulgarian Students**

(Europa's Notes—The last issue of the University of Sofia News Letter contained the following report of conditions in Bulgaria: N. S. F. A. News Service, further explains the situation of the Bulgarian Students. It is the opinion of the News Letter that the condition is serious and that the government should take immediate action. The News Letter states that the students are not able to continue their studies due to the lack of funds. It is also stated that the students are forced to work in order to support themselves.

The students are deeply discouraged and feel that they are being robbed of their opportunities for education. The News Letter appeals to the government to take action to help the students.

**Sophomores Victorious in Two Exciting Games**

The Sophomores, in spite of their humbling defeat in the home game against the Blue and Gold, strolled a couple of touchdowns in front of the Freshmen in yesterday's game. The Freshmen, on the other hand, were unable to score against the Sophomores. The score was 0-20 in favor of the Sophomores.

**CAMPUS CRUMBS**

The Maligns and the Yenuses are hard at work in the kitchen preparing a special dinner for the varsity and alumni this evening. The dinner will be served in the university dining hall at 7:00 p.m. The dinner will consist of roast beef, vegetables, and fruit.

Meanwhile they are floundering among the brick and mortar of the university, which has failed to provide them with the necessary funds. The university students voluntarily contribute to the relief fund, but the amount is not sufficient. The students have to have in hand before Independent Student Financial Aid is provided. In order to qualify, the student must have a minimum of six credits and be a full-time student. The students can apply for funds by filling out an application form. The application must be submitted to the university's Student Financial Aid office.

SOCIETY

FAMOUS ALUMNAE

In Hollins' Hall of Fame one of the first people who comes to mind is Loulie Hunter, who is Mrs. Edward M. House, the wife of the Secretary of State. Another woman known as statesman and diplomat, Mrs. House has been wined and dined by all of Europe's royalty and has maintained her place in the spotlight of international society for many years.

She is living in New York City at present, her address being East Forty-Eighth Street. Her daughter, Mona House, now Mrs. Randolf Tucker, also came to Hollins, and lives at present in Chestnut Hill, Massachusetts. Both are among those whom Hollins is truly proud to call her own.

VOCATIONAL OPPORTUNITIES OPEN FOR COLLEGE GIRLS

After the copy writer has started on her job she will find many courses that are helpful.

Courses in advertising, layout, salesmanship and general advertising can be had at many good business colleges and universitities. She should also work on recognition American woman is usually about three jumps behind the Paris couturiers, and that only the most exclusive shops afford her the best styles. This applies, of course, only to apparel advertising, but apparel advertising will probably be the most important part of the work of the future business woman.

Another thing. The youthful college graduate must forget that she has swallowed the sentence structure and layout. She is, well and good!

The only thing that remains now is to tell how I got my job. It was quite a task. Last fall, after I had abandoned the idea—or the hope—of obtaining any other newspaper work than the daily, I spent an entire day at the offices of several newspapers.

I went to the editors of the papers and said that I must have a chance. I have worked for the papers in the past and I have given them the best of service. I have given them the best of articles. I have given them the best of copy. I have given them the best of copy. I have given them the best of copy. I have given them the best of copy. I have given them the best of copy. I have given them the best of copy.
