Ban on Smoking is Lifted at Hollins

With the advent of smoking to Hollins campus, one of the most discussed and overworked issues ever before the authorities and students was brought to a close. Miss William- son presented the new rules to the Student Body at Convocation, January 11th, and the rules went into effect the following morning.

The rules are: Students may smoke in the Kellers between the hours of 10:00 A.M. and 10:00 P.M. on the golf course, in the faculty homes and in the surrounding country, public highways excepted. Smoking is not permitted on campus, in the tea houses, in public places in Roanoke, or on the buses. Also, during class and other large parties in Keller, smoking will not be permitted.

The generosity of the concession to smoking cannot be ignored and the fact that those who are opposing the privilege can do is to use it wisely, and to show their great appreciation by careful deterrence to the present rules.

February 20th, at 8:30 P.M., in the Little Theatre, the Triangle Chapter of the Hollins Alumnae Association will present the play, Rendezvous, by Owen Davis. It is a three-act farce. The scene is laid on the deck of a house boat.

The Council, it must be remembered, is wholly advisors in function, but its brings Alumnae opinion to bear on problems before the College and strengthens the tie between Hollins and its graduates.
It begins to appear that Hollies will have to reassess the present policy regarding Department on campus, if the number of severe injuries which have been occurring in the last two of years. The Athletics Department is supposed to have charge of getting all the students involved in the winter sports, but the truth of the matter is that our new athletic facility is in a state of disrepair, and it is not our business to spend our time on the field, but rather the business of the Keller and nearby woods. We realize that it is somewhat difficult to maintain an adequate apparatus. Some of its uses around campus are now being developed, but we still need some small items. Among these is a list of those apparatus that is out of order at the end of the year. This list should be taken seriously, as it reflects the seriousness of Hollies, and the seriousness of the rights of Hollies students to have a safe and enjoyable environment.
