Dr. Guglielmo Ferrero
Lectures at Hollins

On Tuesday night, March 17th, Dr. Guglielmo Ferrero spoke in the Little Theatre on the Sunsat of Monarchy. He is one of the leading historians of the present day and has developed some original ideas in the study of history. One of these ideas is the decline of monarchy and the rising importance of the republican form of government, an advance which he thinks most people fail to recognize.

Dr. Ferrero described the governments of the last twenty-five centuries as being mainly monarchial. He pointed out that monarchy had reached its apex of power in 1900, when there were only three important republics in the world, the United States, France, and Switzerland. About 1908 the republican movement really began with the change in Turkey from an absolute to a constitutional monarchy. Between 1908 and 1918 most of the world turned republican, including such countries as China, Russia, Poland, Germany, Austria, Hungary, Turkey and many of the Balkan countries. Dr. Ferrero pointed out the astonishing fact that the monarchical form remains in Europe only on its periphery and then it appears usually as constitutional monarchy; these countries are Sweden, Norway, Denmark, Holland, Belgium, England, Spain and Italy.

As to the causes of this republican movement, Dr. Ferrero said that we should not merely mention the American and French Revolutions, but look behind and through them for complicated problems and solutions. He seemed to think that the most important of these causes was the discussion during the last 150 years of the merits and disadvantages of monarchy and republic, and that one of the things which started the discussion was Rousseau’s Social Contract, from which Dr. Ferrero seems to think that the most important of these causes was the discussion during the last 150 years of the merits and disadvantages of monarchy and republic, and that one of the things which started the discussion was Rousseau’s Social Contract, from which Dr. Ferrero seems to think.

The next question that Dr. Ferrero discussed was why monarchy had reigned for so long and republics had had to wait for so long before coming into existence. Monarchy he described as being a monopoly of a few persons over the majority and as being impossible in barbarian or civilized society. But a republic can only exist if it has a majority and as being possible in barbarian or civilized society. The committee which has directed the Fashion Show this year is composed of Mary Stoakley, Chairman; Martha Huguley, Shirley Newbould and Betty Trenbath. Elizabeth McCleary has managed the advertising and Mary Elizabeth Perry has designed the programs. The proceeds go toward a scholarship for an industrial girl of Roanoke Trunk Company, jewels by Henebry, flowers by Fallons and photos by Aufeugh. Eskelund’s is making a special study of the types of the models in order to arrange their coiffures most becomingly.

Annual Fashion Show
To be Presented To-Night

The annual Fashion Show, a project of the Senior Class, is to be given tonight in the Little Theatre and promises to be a great success. Mr. Glenn Baylor, the Interior Decorator of Thurman and Boone Company, and Mr. William E. Snowdon, a Roanoke artist, are designing and creating the setting in which the latest and loveliest fashions are to be displayed. Evening gowns, afternoon dresses, sports wear, dinner dresses, hats and shoes of every sort and description, even a bridal gown, it is rumored, will be shown. The accompaniment of a nine-piece orchestra will lend to the atmosphere of the whole.

The models, who are being trained by Miss Susie Blair, are: Sarah Brown, Peggy Hill, Mary Frances Hill, Johnnie Eager, Helen Fournos, Dorothy Sorg, McClure Mooklar, Esther Shoup, Martha Huguley, Gertrude Willes, Regina Henheey, Frances Lineberger, Elizabeth McCleary, Burna Mason, Shirley Newbould, Mary Stoakley, Elizabeth Trip囵 and Mary Elizabeth Perry.

The costumes are to be furnished by Spigel’s, shoes by Prosp-Childress, setting by Thurman and Boone, luggage by Roanoke Trunk Company, jewels by Henheey, flowers by Fallons and photos by Aufeugh. Eskelund’s is making a special study of the types of the models in order to arrange their coiffures most becomingly.

Miss Pruette Addresses the Hollins Student Body

The Faculty Committee on Vocational Guidance brought last Friday evening at Convocation a most interesting speaker, Miss Lorine Pruette, who spoke to the Student Body on the subject of “Women in the Modern World.” Miss Pruette said that this is the Golden Age for women. Now, and especially in this country, girls have for the first time in the history of the race the opportunity to do what they want to do in regard to some life occupation. Women have this advantage over men, they can choose whether they want to work or not. As for men, social pressure forces them to work, but a woman, if she is clever enough, can get out of it, often by marrying. That being the case, she can make home work a real profession by bringing in her resources of psychology, mental hygiene, dietetics and economics in the way of budgeting, buying, etc. An individual must have an activity that will satisfy, and if the home alone doesn’t do it, then a woman may keep a home and a gainful occupation also. Or she may get out of the home and get herself a job of her own. Women (continued on page three, column two)

ATHLETICS

The Annual Gymnastic meet was held
on Tuesday, March 19th, at 4:30 clock,
and was witnessed by Miss Ladd, from the Roanoke Y. W.
C. C. with the help of Mrs. M. E. S. of the Greenville Y. W.
C. C. It was a tremendous success. The
season was won by the State College girls,
the results of which were as follows:

Finds Half of Students in Colleges are Unfit

Declaring that "our colleges are suffering from yielding too much to the demand for education, made by thousands of students whose only title to it is their ability to pay the bills," Walter Pichard Eaton, author and critic, asserted in the New York University Daily News recently that even the colleges of high scholastic ranking are only about fifty per cent. effective, because only fifty per cent. of the students ought to be there.

"A large number of American colleges do not have the proper equipment, and cannot even make a pretense of admitting only students capable of serious scholarships," He said.

"Many State universities are in this plight. Such institutions offer numerous courses which, to a serious scholar, seem rather ghastly educational jargon."

"Our private colleges ought, I am sure, to cut down their numbers very materially from the start, insist on careful instruction, and concentrate on the human material which can be shaped into individual thinkers. If that were done there would be far less talk about the 'failure' of the colleges. Needless to say it's done."—N. S. F. A. News Service.

Dr. Swift to Lecture on Social Hygiene

Next Wednesday night in Convocation the school is particularly fortunate in hearing Dr. Swift talk on social hygiene. She is very well qualified to lecture on this subject as is proved by the fact that she has been in much demand as a speaker on various college campuses. Those who wish to have individual discussions with Dr. Swift may make appointments for Wednesday afternoon.
