HOLLLNS COLLEGE RIDING CLUB HOLDS
SECOND ANNUAL HORSE SHOW TO-DAY

Many Outside Classes to Participate in Show

Hollins is eagerly anticipating its Second Annual Horse Show scheduled to begin at 12:45 this afternoon in the ring by the Forest of Arden. Capably managed and arranged by Kay Schmidt, President of the Riding Club, Mr. Graves and Mr. Turner, it promises to be a decided improvement over the first show held last May. Silver cups are to be awarded the winners in each class not to speak of blue, red and yellow ribbons. The judges are Colonel P. K. Chopin and Dr. Ernest Trice, both of Richmond, who have had wide experience in this field.

Perhaps the most striking feature of the second show is its numerous outside classes. This makes of it a neighborhood rather than solely a Hollins affair and it is hoped that in the future it may become a sectional one. Class II is opened to children only. In it, Master Albert Coxe and Misses Mary Cobb Hayward and Kitty Coox, recent Peyton University May Day Queens will be among the riders. A horse from V. P. I. has been entered in Classes IX and XI, while Mr. F. C. Wiley, of Salem, is promising a "surprise" in a fine new horse he is going to exhibit. Class X is open to Commissioned Officers of the Regular Army, Marine Corps, National Guard and Organized Reserves. Such a military display should arouse especial interest on campus.

The Hollins girls themselves have been practicing arduously of late and they are expected to show up as skilled horsewomen. The drill promises to be a spectacular event, while jumping and touchtows will provide the biggest thrills of all.

A young woman who seemed to be having her first experience in a bank approached the window of a paying teller and gave him a large check which she wanted to cash.

"How do you wish the money?" the teller inquired.

"Oh," replied the young woman, in some confusion. "I'll just hold out my hand and you can put the money in it."

Mr. M. Estes Announces New Curriculum Requirements

Mr. Estes Eckel, Dean of Instruction, has recently announced a new curriculum for both the Bachelor of Arts and Bachelor of Science degrees, which takes effect for the present Freshman Class.

It has been found necessary, in the opinion of the Committee on Curriculum, that there are no uniform requirements for college degrees, although at the present time the prescribed work of freshmen and sophomore years is the same in all courses, and it is the practice in courses of instruction for the present Freshman Class.

It is a belief that this method will

English Composition, Physical Education and

Hypers are also required. In addition to these subjects the student must take

a modern language, either French or German; one Science, Physics, Chemistry or Zoology. The other required work is arranged in five groups. The groups are as follows:

1. English Literature.

2. Science (Physics, Chemistry, Zoology or Biology).

3. History or Economics.

4. Psychology.

5. Philosophy and Religion.

In the Junior and Senior years the work is

almost entirely elective. During these years fifteen hours of work must be completed in one field of knowledge, known as the students' field of study. Each Junior must be a participant in the Upperclassmen's study. A Junior subject is to be selected, and it is to be

fields.

Scientifics of Virginia

Hold Tenth Annual Meeting

Academy of Sciences was held at Hollins on the twenty-fourth and twenty-fifth of April, 1932. The presentation from various colleges and the scientific and educational societies of the state, and the desire of the increasing interest in the work of the Academy.

During the two days of the meeting, the sessions met in sections and heard presentations on various experiments which members of the Virginia and Pamunkey have been engaged in, and made reports to the Academy. Of particular interest to the scientific world was the announcement of the discovery of a new species of fish, the Kindred, of the University of Virginia, connected with the Academy. This is a real event in Human Embryology, for it was an all始ory of science, only for such species in similar early stages of development have been missed.

Another feature of the meeting was Dr. Carl Speidel, also of the University of Virginia. Dr. Speidel's paper on the Direct Observations on Living Nerve Fibres Under Normal and Experimental Conditions describes a new method of observing living nerve fibres, which is a revolution in the field of physiology.

Geologists Organize a Field Expedition

In connection with the Science Meeting a field expedition was organized for almost thirty

four geologists and geologists from the direction of the United States Government.

It was particularly interesting to note that both sides of our own Tidewater geologists.

The General Session of the Academy was held Friday night in the little Theatre. At that time a large audience, consisting of members of the local and visiting groups of students, had the privilege of hearing an address by Dr. Karl T. Compton, President of the Massachusetts Institute of Technology, and Dr. Ray O. Brown.

The Evolution of the Research Laboratory.

An equally interesting presentation was Moving Microphotograph of Cancer Cell

DANCE HELD TO INCREASE INCOME

On last Saturday night a dance was held in the Gymnasium. A fee of five cents was charged for admission, and the money collected was to be added to the fund for building the new Library. Two hundred sixty people were present, and the proceeds of the two preceding dances were, this was called a success, and we hope to have several others in the near future.

A care-free and whettly delightful evening was had by all who attended the affair.

Proliferation was given by Dr. Shelton Horsfall. As was announced in the preceding issue, the Junior Branch of the Virginia Academy of Science was organized. To this may be added that the organization is very small, but in science is eligible. There are present members of the Virginia Academy of Science. The organization of this society.
Hollins Receives Valuable Collection From Dorothy Dixon

Another valuable addition has been made to the collection in the Library and for this we again are beholden to Dorothy Dixon, class of 1928. Rev. Dr. Squires has informed us that the 17th Century manuscript, the Heptameron, will be placed in the rare book section of the library. Mrs. Dixon, who has been a faithful friend of the Library, has also been a frequent contributor to the annual giving. The Heptameron is the story of seven women who met in a secret meeting to discuss female love affairs. The manuscript is written in Latin and is considered one of the earliest examples of women's poetry. It is a true reflection of the times and provides insight into the lives of women during the 17th Century. The manuscript is a valuable addition to the collection and will be a significant resource for scholars and students alike.

Athletic Board Appoints A Cabin Committee

The athletic board has recently appointed a committee to handle the cabin system for the season. The committee will be made up of representatives from each of the athletic teams and will be responsible for the selection of cabin leaders. The committee will also be responsible for overseeing the operation of the cabins, ensuring that the rules and regulations are followed, and that the cabins remain a positive and enjoyable experience for all students.

The selection of cabin leaders is an important and challenging task. The committee will need to consider a variety of factors, including the candidates' leadership abilities, their knowledge of the rules and regulations, and their ability to work well with others. The committee will also need to ensure that the cabins remain a safe and supportive environment for all students.

The athletic board is committed to providing a positive experience for all students, and the selection of a strong cabin committee is an important step in that direction. We look forward to seeing the outcome of this process and to working with the new cabin leaders to ensure a successful and enjoyable season for all.

Social Science Association to Meet

The sixth annual meeting of the Virginia Social Science Association will be held May 7th and 8th in Richmond. The meeting will feature a variety of sessions and workshops, including sessions on public finance, local government, and social policy. The keynote address will be given by Dr. George Washington, the former president of the University of Virginia. The meeting will also feature a roundtable discussion on the current state of Virginia's social science programs.

The Social Science Association is the largest and most active organization of social scientists in Virginia. The association's mission is to promote the study of social science, to support the work of social scientists, and to provide a forum for the exchange of ideas and information. The association's meetings are a key part of its mission, providing a valuable opportunity for social scientists to come together and share their knowledge and insights.

The Social Science Association is a vibrant and active organization, and its meetings are always well-attended. We encourage all social scientists to consider attending the meeting in Richmond. The meeting will be held at the Sheraton Richmond Hotel, and we encourage attendees to make early reservations to ensure a room.

We look forward to seeing you at the meeting in Richmond. The Social Science Association is an important and valuable resource for social scientists, and we are excited to be able to support its work.

The Virginia Social Science Association

Athletics

The winter season of Intramurals is now underway, with the Indoor Meet being held May 3rd. The Intramural Committee has announced the Spring Intramurals schedule, which will be announced in a future issue of this newsletter. The Intramural Committee is looking for a volunteer to take on the role of Intramural Coordinator. If you are interested in taking on this role, please contact Ms. Smith, the Intramural Coordinator.

The Intramural Committee is also looking for volunteers to help with the Fall Intramurals. If you are interested in volunteering, please contact Ms. Smith.

The Intramural Committee is looking for new members to help with the organization of the Intramural Program. If you are interested in joining the Intramural Committee, please contact Ms. Smith.

The Intramural Committee is also looking for new members to help with the organization of the Intramural Program. If you are interested in joining the Intramural Committee, please contact Ms. Smith.
Kay Field spent last week-end at home in Baltimore.

Mrs. J. F. King visited her daughter, Helene, this week.

Betty Trenth Palmer, '31, is visiting Kate recently.

Mrs. Will Holland, of Jackson, Tennessee, visited Kate recently.

Sarah Gilliam visited her parents for several days last week.

Mrs. J. S. Hamilton, of Glen Ridge, New Jersey, is on campus with Marion.

Dorothy Donovan spent part of the past week-end at home in Clifton Forge.

Lucy Faulkner and Elizabeth Johnson visited Carol Faulkner for a few days.

Dr. and Mrs. H. E. Jordan, of Charlotte, were on campus visiting their daughter, Kay, several days last week.

First Hollins Dance is Highly Successful

The first Hollins dance, held on Saturday, April 16th, in the Taylor Gymnasium, was enjoyed by a large group of faculty, students and guests. Due to the successful functioning of the Introduction Committee and the splendid cooperation of the students, the dance was anything but slow. Only during the Senior and Sophomore "no breaks," in fact, were the guests afforded any respite. Weede Meyer's orchestra was highly satisfactory and several skits given by members of the orchestra were enthusiastically received. During the entire dance refreshments were served in the anterooms. The Sophomore Class cleared $225.00 on the Prom. This money was immediately voted to the Endowment Fund.

Drawing for Rooms for Next Year to Start Soon

The drawing for rooms for next year will be held during May. The applications for admission, which have already been sent to the families, must be returned on or before May. Only those whose applications have been received will be allowed to participate in the drawing. The drawing will start as soon after May 9th as possible, although the definite times for the different classes to draw have not been announced.

ALUMNAE NOTES

Ellie Weaver Norton, ex-'31, was on campus last week while touring in the South on her honeymoon.

Kathryn Snyder, ex-28, was married last September to Mr. Roger Jackson. They are now living in Cincinnati.

The Pittsburgh Alumnae Chapter recently held a subscription card party, the proceeds of which are to start a scholarship fund.

Evelyn Jones, '29, who has recently returned to America after a trip abroad, spent a few hours at Hollins on April 14th.

Miss Harris, a former Hollins student, who is now head of the Mathematics Department at Westminster, was on campus last week-end for the Science meetings.

Catherine Mizelle, ex-'33, will be married May 11th to Mr. Frederick Mordecai Lyon. The ceremony will take place at the Methodist Episcopal Church, Opp, Alabama.

CONCERT TO BE GIVEN ON TUESDAY, MAY 3D

Tuesday, May 3d, at 8:00 P. M. in the Chapel, Miss Helen Flournoy and Miss Julia Lamar will give a joint piano and voice recital. The pupils of Mr. Erich Rath and Miss Adele Campbell, they are to give their graduating recital, the program of which will be:

I. Moonlight Sonata, Opus 27, No. 2, Beethoven, Helen Flournoy.
II. Passing By, Purcell; When Daisies, Pied, Arné, Julia Lamar.
III. Gavotte, Bach; On the Mountains (Sketches of Norwegian Life), Grieg, Helen Flournoy.
IV. Ariette (Si feitas), Vidal; Le Coeur de Ma Mère, Dalrose; Gavotte (Migny), Thomas, Julia Lamar.
V. Einde, C Minor, Chopin; Incantation (Enchantment), Dett, Helen Flournoy.
VI. The Dance, Chadwick; My Soul is Like a Garden, Chadwick; Close, Huntington-Woodman; Love's in My Heart, Huntington-Woodman, Julia Lamar.
VII. Concerto (Scherzando), Pierre, piano, Helen Flournoy; organ, Mr. Rath.

Another interesting recital which will be given soon is that of Miss Kate Holland. This will be held May 8th at 5:00 P. M. in Presser auditorium. The program will be:

I. Prelude and Fugue, C Minor, J. S. Bach; Adagio Op. 111 B Flat, Beethoven.
II. Nocturne, C Minor; Mazurka, A Minor; Waltz, C Minor, Chopin.
III. Dance of Desire, Nathaniel Dett; Banjo Pickers, John Powell.
IV. Concerto, PIERE, Mr. Erich Rath, second piano.

One of the facts brought to light at the recent Science Convention is that the formation of the mountains immediately surrounding Hollins College are what is known as the valley formation. The characteristic Blue Ridge formation which appears on the mountains to the east of us is from 2,000 to 2,500 feet below the surface of the ground on the College campus. The characteristic Alleghany formation begins at a considerable distance to the west of Hollins.

Campus Crumbs

Spring has proved one thing, anyway—the cows certainly do know their onions!

May we take this opportunity to tell Anna Boyce that the stairs at Hollins are not escalators, and to please stop considering them as such on her many flying trips.

No excitement to speak of during our past elections. No tight passing, nor baby kissing. All would have gone blithely and smoothly along if Mary Alice hadn't been such a sleepy head.

Juniors—only five weeks and you can wear the long covered cap and gown. "Why, it seems only yesterday—" Yes, you egg, it does, and this graduating business is getting too close for comfort!

Soch egcitement! And what a lot of unscientific-minded scientists! The campus last week-end made one think of Commencement or the Sophomore-Senior prom, but it was all very nice and diverting.

The annual disease of glorious inaction has again set in. Sun baths and general loafing are the order of the day for those of us who have not been properly inoculated against it. It is feared that results may prove fatal.

Here is the worst of this week's puns: Miss Scott, when emphasizing the importance of Afghanistan the other day in class, said, "You know Afghanistan—what we have all wrapped up in." No matter which way the historical cat jumps, we resent that, Miss Scott.

It is always nice to call attention to the latest and newest fads on our campus. They have ranged from checkers to deviled eggs to "No matter which way the historical cat jumps, we resent that, Miss Scott."

Dr. Hearsey is nothing less than a gluton for punishment. After all but departing this vale of tears in a blaze of glory while the Sophomore Class stood by and wildly commented, "Oh, Dr. Hearsey is on fire," she started bravely off on another picnic last Sunday. For the sake of the Sophomores we must the installation of a course in First Aid or "Immediate First Aid."

"It's raining and sleeting and I'd like to buy some chains for my tires."

"I'm sorry, madam, we keep only groceries."

"How annoying! I understood this was a chain store!"

"Hollins Student Life, April 30, 1932"
