Hollins Cabin is
Built and Dedicated

It is with pleasure that the Athletic Board announces the completion of the cabin, which has been the dream of many Hollins students and faculty members during the past few years.

Last Sunday night the old girls, who were on campus, listened to the cabin. They were its first listeners. Daily Britt ran the fire in the hearth, and the students sang. While each person strapped the flames away and happily, the music was sung to the many Hollins girls who had and still have a passion for the Woods cabin. The cabin is now very close in walking distance of the campus, so that every Hollins girl may enjoy the fire and the singing. It is situated on the Woodland Farm about one and a half miles from the college. From this spot, one obtains a beautiful view of the Little river Valley and its edges. The cabin will be for the use of all students, and will accommodate fifteen people comfortably. Although the construction of the cabin is completed, the furnishing of the cabin is yet to be completed.

The Freshman Extra will have the cabin ready for use this fall for the benefit of all students. It is estimated that the cabin will be used by the students who are especially from the standpoint of being acquainted with the college and fresh.
