MHA ZOUS

Whenever a matter of change is involved people tend to gasp in horror, "Oh, no!" Others reply, "Why not?" and there you are. This time, in connection with the possibility of changing the school year from two semesters to three, we want to ask, "Why not?"

It does seem that the period preceding Christmas is wasted as far a academic work is concerned. Almost everyone is too busy counting the minutes before the train leaves to concentrate seriously. Yet if exams came before Christmas there would be a very decided point to studying in fact, we might say a necessity. Thus, it would be possible to make these two or three pre-vacation weeks attain some significance and value in relation to studying.

Moreover, vacations have the habit of disrupting the continuity of course. When students leave for Christmas holidays their tendency seems to be to put academics as far from their minds as possible certainly they can't be blamed for that. But then they return to college tired and none too-pleased in the knowledge that they face a period of intensive studying which is terminated by exams. No student, in such a condition, is in position to do herself justice. If, however, the school year were divided into three semesters, exams would belong to the past before the holidays, the course of each subject would not suffer from two weeks' interruption and each student would have the gratifying knowledge that she could make a fresh start at her return.

Another reason for favoring the three semester plan is that spring vacation would follow the second set of exams thereby giving all those benefits mentioned in relation with Christmas holidays. The third set of exams would then precede the end of the school year, thus dividing! the year into more even and continuous parts.

Some may object to the idea of more exams. But don't forget this cheerful note the more exams there are the less material there is to: for each set and the better your chance to raise your grades. why not try three semesters instead of two?

WORTH-WHILE GIFTS

efficiency of these divisions.

Such gifts are an example, in large, of what we as individuals can do an encore and find so many students struggling up the aisles in a small way for our college. It is recognized that the Carnegie gift is the result of the aspiring purpose of a very wealthy man, but doesn't the "itself, is a reflection on one's lack of appreciation for culture. It is very immeasurable value of this gift suggest to each of us the value of any appropriate gift, whether it be large or small?

of its greatest charms is the sense of personal heritage which every girl who comes here soon gains. It is impossible to be on campus for even a short length of time and not realize that Hollins is a small, intimate community, whose intrinsic value is based upon the unfailing interest of all those people who ever have been connected with the college. This interest has been expressed, time and time again, through gifts whose appropriateness has shown the donor's knowledge of the needs of the institution. As we of the present realize the value of the heritage of the past we cannot fail to keep our interest in Hollins keenly alive, not only during our four years here, but also in the following years that we, too, may add our gift to those of the past.

IS THE GRADING SYSTEM JUST?

The idea that our Λ , B, C system of grading a student's work should be substituted for a less rigid system consisting of passing, not passing and honors work, is not a new one. The need for this change, however, comes upon us with a bang in the first week of every second semester. For we go to class and hear our professors confess how sorry they are Editor-in-Chief that some of us did not get the A or B we might have gotton had our Associate Editors exam been better. They know, they say, that we have done good worl Managing Editor and are intelligent. Or we go to Keller and hear our friends puzzling over Neas Editor the system whereby they are graded. One girl who has had a B on every xritten in a certain subject has received an A on her report. Another business shanager girl who has received a B on every written has received a C on her Moore, who is chairman of tennis and

report. They don't care about grades, they both agree, but they would ping pong, was in charge. Two table like to know by what plan they were graded. Passing, not Basket ball season is in full sway now. passing and honors, we feel, would give a professor more leeway for Atthough there are not so many girls one for the sport, the teams will be composed considering both quantity and quality of the work.

Another outcome of the present system is the peculiar role merit promise you some scrappy games in the points play in passing, flunking and graduating a student. Often the very near future. The captains of the idiculous situation occurs that a girl fails on account of one merit point. teans are as follows: Fortunately, by special consideration by a special committee the one merit point may be waived. But how much better it would be if the Sornoyous rouble were cut off at its root - by ending an out-worn system of grading! FRESHMEN

The Dean's List, too, as it now exists, is an unfortunate result of the Miss Edith Grosvenor, a national merit point system. By arbitrary circumstances many girls are not on Class B referee, will referee the Seniorit who should have this honor—though, as it is now set up, the honor is Junior game. The schedule of the games to be questioned. It consists, first, of unlimited cuts, which privilege, if Sophomore-Senior used properly, may help a student do more independent work. Girls with JUNIOR-FRESHMEN 2.3 average are given unlimited cuts because they are supposed to have Sorномоке-Juxior he intelligence to use this privilege wisely. But, in the second place, Freshmex-Sexion as this privilege is coupled with unlimited week-ends it has, in reality, Sophomore-Freshmen. resulted only in greater social liberty for those girls who happen to make on March 9, the Red-Blue game will the Dean's List. And "Dean's Listers" often have not shown any more serve as the grand finale for the basket ball liserction in using this privilege than C students in fact, often less, season. While the C student makes the most of her opportunities to study, the "Dean's Lister" depends upon her quicker brain to carry her through on found that 32 preferred the present system ess work. An Honor List set up to encourage increased study for girls and 114 voted for the return to the who have shown aptitude for study would be justified. The present Monogram Club, Because the Athletic Honor List, however, is faulty in its conception.

These are all time-worn arguments. Faculty and students recognize former system, it will introduce a few their validity. Why can't we do something about the situation?

Curtis String Quartet Presents Musical

On Wednesday evening, January 9, Hollins was treated to some exceptionally fine music by the Curtis String Quartet which consists of Jascha Brodsky, violin; Max Aronoff, viola; Benjamin Sharlip, violin; and Orlando Cole, violoncello. The first number, the quartet in G Major of Haydn, paid tribute to Haydn as the played with precision and understanding, with all the broadness and dignity that be "left out in the cold." was Haydn's.

Torero, is a modern Spanish work that is screamed and yelled. Three fainted. With almost oriental with its minor, haunting grim determination the rest of the school quality. The warm, rich harmonies and adjourned to back campus to catch a drag the beautiful use of the mute on the 'cello gave a mystic, veiled quality that was truly lovely. The Tschaikowsky Scherzo which followed was light and graceful, a lively contrast to the preceding compo-

The closing work has an interesting autobiographical conception behind it Smetana, the composer (1834-1884), was the founder of the Bohemian School of Composition. This year musical centers are celebrating the fiftieth anniversary of his birth. The first movement of this quartet expresses his youth, his love of art and his desire to express himself; the second first met her, and in the fourth is expressed the realization of the use he could make of Bohemian folk music. The high note held just before the end was a note which he really heard and which caused his deafness. He later became insane and died in misery and poverty. As an encore to this beautifully sincere number the Curtis Quartet played the Minuet from the Quartet in Eb Major by Dittersdort.

Aside from the music the instruments themselves were of great interest. The first violin was made by Gofriller in Venice in 1728; the second violin by Guarneri in Venice in 1750; the viola, the oldest of all, was made by Nicolo Amati in Cremona in 1677; and the 'cello by Giovanni Rogeri, in Breccia, in 1701. All the instruments belong to the Curtis collection.

This quartet can hardly be praised highly enough for its beautiful and comprehensive rendering of this program. Interpretation and technical skill were in their enthusiasm, extinguished barely combined to make an exceptionally fine lighted cigarettes in the fine new pots. concert, one of the best that Hollins has enjoyed. The complete program was as follows:

Smokers Freeze While Keller Recuperates

On the very cold, very first day of February at a compulsory meeting of the student body, Keller was announced formally closed until Sunday noon. It needed a chance to recover from the illeffects it had suffered from those who dropped ashes on the floor, threw discarded stubs on chairs and window-sills, "Father of the String Quartet." It was kicked over ash trays and trash baskets, and singed plants. The smokers were to

And so, the news of the closing The second number, La Oracion del of Keller reached the students. Girls and a very bad cold. Because, as you remember, February was rushing the season and coming in like a lion.

The days dragged on and on. Meanwhile, back campus was a pitiful sight. Hollins girls could be seen walking briskly to and from Keller with icicles hanging from their ears and peaks of snow balancing on their eyebrows. It was bitter weather. People huddled as close as possible to the little circle of fire on the end of their cigarettes. Some evidently got too close-or so it sounded when several girls muttered dark words about singed gloves. And all this time Keller had been recalls the joys of youth; the third is black and unhappy, faintly resembling dedicated to the love for his wife when he an empty opera house. Yet, you remember, Sunday did come. Good old Sunday! Right after dinner the school filed bravely down into uninhabited

There they found new cream-colored pots (faintly reminiscent of our musheating days) in which to put ashes and dead cigarettes. Also, there were some splendid new wastepaper baskets for Mrs. Orange Peel and all her relations. Charming new shades adorned the bridge lamps and slyly complemented the new shine on the floors. Best of all, the windows were so clean that one could actually tell the time by that far distant library clock. And yet, in spite of these innovations, Keller was still Keller. The piano over in the corner was still grinning in the same delighted way. The radio was still effervescent with static. The chairs still had four legs or else rockers.

It was a grand sight. Girls sighed and,

tercourse and education.'

The latter section of "intercourse and education" provides many institutions and colleges with cultural material which they would otherwise be unable to attain. It is this group which so recently gave to Hollins this invaluable equipment for the Music and Art Departments. In addition to this most generous gift, the Carnegie Foundation has provided the Hollins library with many timely and worth-

hundred guests and delegates were representative of the progressive organizations in the country.

Mrs. Roosevelt who attended some of the discussions invited the whole conference to the White House for tea and to meet President and Mrs. Roosevelt.

The conference was notably organized and planned to the last detail. Taken in general perspective it was optimistic although it was thought that fifty years would pass before their objectives would be completely realized.
