Honorary Organization Present to Students
HARRIET ANN JACKSON SPEAKS ON FREYA

On Wednesday night in convocation Harriet Ann Jackson, Chairman of Freya, presented Freya to the student body. Miss Jackson began her talk with a brief history of Freya. This honorary organization began thirty-two years ago when a group of girls "felt the need of some organization which would embody the high ideals by which they sought to live; that by union under a bond of a common purpose, they might set those ideals as the standard of life of the noblest-minded of Hollins girls." They established Freya to promote interest and research in Southern history and to foster a sense of pride in the South. Anyone could be a member of Freya, and immediately proceeded to search for Emma. However, there was more than foolishness to the great war. A hospital some doctors of the Southern Historical Association, and to organize an annual meeting of the Southern Historical Association. The meeting was held in Birmingham, Alabama. Dr. Bruce is a member of the Executive Council of the organization and was on the committee which worked out plans for the formation of the organization in Atlanta last year. In the interest of Sir Norman Angell, British lecturer and winner of the Nobel Peace Prize in 1933, another great war, one which would be even more disastrous than the last, is likely to take place if peace efforts at Geneva do not succeed. Sir Norman Angell has expressed his belief in the need for international cooperation in relation to the present Italian-Biblio- gian conflict, on October 23 at Roanoke College.

We are all in fear of war," he said, "the nations waste control of more materials than is to be accounted for in time of war. Each nation is maintaining its army and its navy. Each nation wants of it what it will need in the event of war. It regards foreign domination as worse than war itself. The man for whom Norman advocated optimism in the minds and hearts of men.

Dr. Kathleen Bruce Goes to Historical Meeting

In the opinion of Sir Norman Angell, British lecturer and winner of the Nobel Peace Prize in 1933, another great war, one which would be even more disastrous than the last, is likely to take place if peace efforts at Geneva do not succeed. Sir Norman Angell has expressed his belief in the need for international cooperation in relation to the present Italian-Biblio- gian conflict, on October 23 at Roanoke College.

We are all in fear of war," he said, "the nations waste control of more materials than is to be accounted for in time of war. Each nation is maintaining its army and its navy. Each nation wants of it what it will need in the event of war. It regards foreign domination as worse than war itself. The man for whom Norman advocated optimism in the minds and hearts of men.

Dr. Kathleen Bruce, professor of History, attended the first annual meeting of the Southern Historical Association, October 25 and 26. The meeting was held in Birmingham, Alabama. Dr. Bruce is a member of the Executive Council of the organization and was on the committee which worked out plans for the formation of the organization in Atlanta last year. INTERNSIONALLY CONNECTED COLLEGIATE AMERICA

The College of the United States has more students than all other institutions of higher learning combined, excepting that it is much larger than any other institution in the world. The student body of the college is made up of men from all parts of the United States and abroad. They are not only from the United States, but also from Canada, Mexico, and other countries.

The college of the United States is one of the few institutions of higher learning that offers a wide range of courses. It is a coeducational institution, and it offers degrees in arts, sciences, and other fields. It also offers programs in business, engineering, and other fields.

The college of the United States has a strong tradition of academic excellence, and it is one of the few institutions of higher learning that is known for its quality of instruction. It has a strong emphasis on research, and it is home to many distinguished scholars.

The college of the United States is a member of the Association of American Universities, and it is one of the few institutions of higher learning that is a member of this prestigious organization. It is also a member of the Association of American Colleges and Universities, and it is one of the few institutions of higher learning that is a member of this organization.

The college of the United States is a member of the American Council on Education, and it is one of the few institutions of higher learning that is a member of this organization. It is also a member of the Council for the Advancement of Sarcasm, and it is one of the few institutions of higher learning that is a member of this organization.

The college of the United States is a member of the American Association of University Professors, and it is one of the few institutions of higher learning that is a member of this organization. It is also a member of the American Council on Higher Education, and it is one of the few institutions of higher learning that is a member of this organization.

Where, Oh, Where is Archie the Cockroach?

Hear Ye! Hear Ye! All ye detectives and detection-inclined! Call out your bloodhounds, wipe off your magnifying glasses and discover the identity of that mysterious bird, he or she in Johnson Library, Page 2, is the product of Archie's hopping feet. Yet he will remain anonymous to all the world. Talk! Such mystery.

But do ye know to his case history. His quill was sent by mail, typewritten on plain white paper, and since that time Student Life staff has had no peace. They have noticed their daggers look as they comb the campus for any possible clue as to the identity of this mysterious bug. Suspects have been hand-up on the front porch of Main and made to swear with their right hand on a Personal Hymen Apotheosis that they were living most and serving best and know NOTHING about Archie. Members of the Writers' Club have had their every movement shadowed and their rooms ransacked in hopes some loose end will turn up to make Archie stand forth in all his glory.

In the whole campus is a tur­moll! The seniors have been having nightly meetings to discuss the whereabouts of Archie. Juniors and sophomores have cut classes to hold meetings as to what a Hollins girl should do under such circum­

cations. The freshmen, realizing that their reputation is made if they solve the mystery, have turned West upside down to discover the TRUTH OF THE BUSINESS. It is rumored that even the faculty abolished their monthly meeting in favor of a symposium on "The Truth About Archie the Cockroach," whereas they resolved to set aside a day in No­vember to be known as "Roach Day," in which the search was made wide afoot and far on the identity of that mysterious BUG.

Oh, Archie—You Roach! You can never know the turmoll you have caused. You have transformed our happy campus into a turmoll of seething emotions. Where will it all lead? Oh, Archie! We beg of you reveal your identity, and set at peace the hearts and minds of Hollins girls everywhere and restore once more the calm and tranquillity of our happy campus!

In reminiscent mood Credulous Tinkers opines that coffee isn't the only thing that's fresh when dated—Springfield Union.
