Some Juniors were discussing open to the campus at large. These meetings are an opportunity to widen our horizon of worldly knowledge... The program has been by a general European correspondent, the present period is the national... Stalin will triumph in the end. For life is both what we find and what we make. We, who are awake in this world, must listen to the radio, we read satches out of the newspapers, we talk... It seems... That is life, so is that other side. The side that reveals to us the signs of a complete victory. That is life, so is that other side. The side that reveals to us the signs of a complete victory.
Career Girl Makes Successful Wife  

**SURVEY PROVES THEORY**

Girls who have worked before marriage make better wives. School teachers or other workers with similar experience are taught in a manner that will help them discharge their duties as housekeepers. They are modern and up-to-date in their methods of housekeeping. If you're going to get married, make the woman a success.

But why do girls who have worked before marriage make better wives? Dr. Leonard E. Tuck, of the Department of Sociology at the University of Southern California, has spent several years in studying marriage, and he has come to the conclusion that marriage is based on a lifetime of work. Dr. Tuck says that marriage is the most complex relationship that a man and woman can enter into. It requires a great deal of work to make a marriage successful. Girls who have worked before marriage have had the opportunity to develop a sense of responsibility and a sense of independence. They have learned how to work, how to manage their time, and how to take care of themselves. Girls who have worked before marriage are more likely to be successful wives because they have had the opportunity to develop these skills.

The tennis tournament overshadowed everything else in a big way these last few weeks. Peggy Gillies and Annie Rober and Hal and Harper Ricketts fought hard and well in the semi-finals, but again for the final match. Both girls played beautiful tennis. The first set was scored in form...splendid forehand and backhand drives, placement shots and long volleys...miraculous shots.

No new set was set the spectators were actually on the edges of the benches, cluing their mittens. With grim determination, Annie and Harper taxed their power and brains to outwit each other by placements and alternating hard and soft, deep and shallow balls. Finally, after a battle royal, Harper came through to claim the first set 11-9 and took the second 6-0. This match was probably some of the best tennis Hollins has ever seen. We've got real talent here!

Now Hockey Takes the Limelight
Where is all the hockey talk? Hockey took a back seat to the tennis fronts show their stuff, but now it's stepping back into the limelight. The big games are getting dangerous close and the class teams are working like mad to get into shape. Monday, the 30th, is the Junior-Freshman battle...I do mean battle. On the next day, the Seniors and Sophomores clash. What will the outcome be? Every class hopes for the best. Which will be the victor? Will the Sophomores win again this year?...I hope (prejudice). I can't stand it if the games don't hurry up and come.

—With Horses Minus Saddles

Speaking of practice, have you noticed the riders on horses minus saddles... (minus the horse)? It's all in preparation for the big Gymkhana and no one rides with a saddle today...very amusing to the spectators...apt to be very exciting and slippery for the riders...and no end of fun for the horses. Then, too, you may have noticed the riders throwing their arms wildly about the horses' necks, kicking their feet into the air and keeping (not too casually) to the earth (security). That's merely an Old Riding Club custom, sponsored by Capt. Graves. It's all in the game. You simply must watch them some time.

—and Two Tournaments

The archery tournament is upon us...and the cow pasture. Paige Martin and her huddles of the bow and arrow are all set (for some sharp shooting...into the bull's-eye), the hope they have.

On Saturday, the golf tournament will be the primary attraction. Beach Sanders and her gang promise some real golf...and I do mean good...and they don't have all their hogs we do (the way I do)...why not trot over to Blue Hills Country Club and have a gander at the whole affair?

Swimming, bicycling, tea-house teasings are still as popular as ever...mostly tea-house teasings...so I'm off (and I do mean off).
