Important Announcement In Gym 6:30 Tonight

Publications Reduce Expenses
Students Approve Plan

Publishing staff has been happy over the past few weeks as the savings on expenses have been approved. The student newspaper, Hollins Columns, recently published an announcement about the reduction of expenses due to the staff's approval of a new printing plan.

Curriculum Committee Gives Plans for Campus War Work

The Curriculum Committee has agreed that each student should participate in a way that is meaningful to them. The plan includes various activities such as working on the farm, in the library, and for the community. This is in line with the current need for students to contribute to the war effort.

Katherine Bacon Comes to Hollins

On February 27, 1945, Katherine Bacon joined the faculty of Hollins College as an instructor in the English Department. Her teaching career had begun at the University of Virginia in 1939 and she had later been appointed as an associate professor at the University of Kentucky. Her appointment to Hollins marked a new chapter in her academic career.

Constance Wardle Renders Recital

On Wednesday evening, March 5, at 8:30 p.m., Constance Wardle will perform at the Academy of Music. Wardle is a well-known pianist and has given many recitals across the country. Her performance will be a highlight of the evening.

OPEN LETTER TO THE STUDENT BODY

To All Students:

I am writing to inform you that we have received some concerning reports regarding recent activities on campus. It is important that we all remain vigilant and report any suspicious activities.

Best regards,

The Dean of Students

BUY WAR BONDS

Hollins College, Virginia. February 26, 1945.
**Weather Report**

Through the pandemic of 1929, the situation is somewhat different. Indeed, the situation is different, but it is not different enough. The situation is different, but it is not different enough.

**Heinlein Says**

"You don't appreciate the scheme of things, do you?"

Heinlein, the famous science fiction writer, has just published a new novel. The novel is about a group of astronauts who are sent to explore a distant planet. The astronauts discover a civilization that is very advanced, and they are amazed by the level of technology.

**World Wind**

"I'm not sure about it."

World Wind is a popular science fiction magazine that features articles on the latest developments in science and technology. The magazine is known for its in-depth coverage of scientific topics, and it is read by scientists and science enthusiasts alike.

**Skirting the Field**

The field hockey team has been working hard this season, and they are excited for their upcoming game. The team is looking forward to a strong performance and is hoping to come away with a win.

**Civil Service Jobs Open to Students**

The government is offering numerous civil service jobs to students. These jobs provide valuable experience and can be a great stepping stone for a career in government.

**Executive Council and Group Leaders Discuss Orientation Program**

The executive council and group leaders met to discuss the orientation program. The council members discussed the goals and objectives of the program and how it can be improved.

**Open Letter**

"Dear Students,"

The open letter is addressed to the students of the university. It contains important information about the upcoming academic year and encourages students to get involved in the community.

**Founders' Day**

"In honor of the founders of the university, we are celebrating Founders' Day."

Founders' Day is a special day that is dedicated to the founders of the university. It is a time to reflect on the history of the university and to honor its founders.

**Y.W.C.A. Forecasts Spring Activities**

The Y.W.C.A. is forecasting a variety of spring activities for its members. These activities include sports leagues, music events, and community service opportunities.
In line with the present all-out drive for the war effort on campus, the students express their opinions this week on putting ten per cent of each allowance into war bonds and stamps.

MARY FRANCES SMITH, '44

No one doubts or questions the importance of war bonds and stamps, and there should be no doubt as to the obligation of every girl to do her part in the effort to finance the defense programs. There should be no question of an allowance centered on our patriotic duty. I think every girl should realize her responsibility in the war bond drive, and that she should conscientiously put forth all effort to buy many stamps or bonds as she honestly believes possible on her allowance. We need at Hollins, not a determined percentage of money to be spent on bonds, but a general desire to buy stamps and bonds. We do not yet realize the significance of war bonds, but we must begin to think about, to want and to try to buy them."

VAL KUNTZ, '44

But definitely I'm in favor of the idea of every girl putting ten per cent of her allowance in war stamps every month. We should do our part in the war effort, and the bonds we can do while we're here at college, aside from selling surgical dresses and attending defense courses. I really believe that giving part of our allowances each month is not only a patriotic duty but a necessity. Why don't we try to ignore the fact that our country is engaged in a war, where one cent really is that we must give until it hurts? Give up a few of those pretty things and spend twenty-five cents on the tea house and you'll have the two or three necessary dollars before you know it?

ELIZABETH BRADLEY, '45

Attention, Hollins girls! An official announcement has just been made to the effect that we must give up ten per cent of our money to war bonds. This is not only a patriotic duty but a necessity. Why don't we try to ignore the fact that our country is engaged in a war, where one cent really is that we must give until it hurts? Give up a few of those pretty things and spend twenty-five cents on the tea house and you'll have the two or three necessary dollars before you know it?

JOAN ROBERTSON, '46

I think that every Hollins girl should put ten per cent of her allowance into war bonds and stamps, not only because it is her patriotic duty to do so, but because it will help her to realize that she is doing her part towards victory. We are able to give ten per cent of our money by buying war bonds at Hollins to prepare us in a phase of work necessary for victory. We are actually able to do our part, we must do the next best thing—buy war bonds and stamps. Every war bond and stamp that we buy will help pave the way for us so that when we are prepared to do our share in this all-out effort, we will have a better foundation on which to plan and build for a stronger defense.

This is our war and the more we put into it, the more quickly it will end. If we want security tomorrow, we must buy war bonds and stamps today.

Hudson 'n' Judson

Hudson 'n' Judson have been doing more than their usual work. We have been directed towards the antics and actions of the Kampus Kids in search of excit­ment. Last year at this time we had thought of walking down the road a piece—to the Lee Theater. Guess you heard about it—"it actually happened that six even-voiced Anonymous (now called The Solemn Sextet) started out full of pep, pose, personality, and punch to see a move five miles away. From all accounts the stroll was fun while it lasted. But it lasted too long.

We can remember back a couple of weeks ago, too. With the barometer touching nigh onto zero, the ambulatory impede! led up the road another hearty party in search of Mary's Pond, regardless of the fact that the ice hadn't been declared "physically fit."

And, of course, not even one as near­sighted as Hudson could miss stumbling over the increasing number of marks. It seems as if every Monday Harus another one in on the express truck. Now that buds are budding and spring is really sprouting, another method of proving you "don't get around much anymore" is to drug out the rusty, dusty roller skates, and let fall what may. Wham! Bam! Thank you, ma'am.

And last, but not least, come our "week-end specialties"—now free of charge. When the studying gets tough of the moment, get a slice of cheese above it all on a pair of six foot stilts. It's lots of fun, and a healthy way to die young!

Marriage

 crianças (Continued from Page 9)

 succeeded by Jeannette Sibley, Texas Doran, G. G. Grumwell, senior, Floeen Crockett, and then by the freshmen who made some more merrymakers.

Those engaged, far too numerous to mention, and those pinned lightly—numerous places of entertainment and amusement, those present.

But do not, in the light of the above activities and contribu­tions of the Hollins girls, be led to think that this standard should be put into effect on our campus. Our parents are the wage earners and we are not; they are putting their money into bonds—and cutting our allowances to do so. If those who are able and willing to put ten per cent of that month check voluntarily into bonds, do so, I think it would be wonderful, but I do not think any compulsory standard should be set up which might embarrass many of us who have already been reduced to a minimum allowance.

Ann Bennett, '44

I think the students here at Hollins should pledge ten per cent of their allowances for war stamps. As it is, we really don't do enough for the war effort. We give our time to Red Cross work and to certain war courses offered, but we don't give enough money for these war stamps. People don't realize that the government needs this money that the selling of stamps brings in. We should be able to sacrifice a few things that we spend money for—such as the ten house every day or some other personal pleasure—and put that money into war stamps and bonds.
