20 December, 1979

Dr. Irene Tinker
EPOC
1302 18th St., NW, Suite 203
Washington, D.C. 20036

Dear Irene,

This is to confirm our date for 8 January. We are pleased that you have decided to hold your meeting here, as it will give us a chance to catch up with you. Maybe you can arrive in time to have a sandwich with us and tell us about current EPOC developments, as well as more about your plans for the consultation you are arranging. Unless you let us know of a change, we will count on the meeting's taking place from two to four or longer.

There are a number of persons here in the NGO community who are interested in the question of health service delivery to women. One is Denyse Barbet, who represents the Association for Women in Psychology at the UN. She is involved with a task force on health which is preparing for official NGO observer activities in Copenhagen. In the event that you would like to talk to her, I will put her address at the end of this letter. Don't be dismayed that the first thing you will hear if you call is a tape in French. Denyse usually picks up before that has finished.

Vicki Semler, IWTC associate director has approached problems of communication with village women from the family planning perspective and Anne Walker, who has done some work for Pan American Health Organization conferences, has experience from the group work side. Vicki leaves early in January for Guyana, but Anne can be reached right after New Year's and will be here the day of your meeting.

You have probably identified the consultants you want for your meeting, but if we can help in finding others, please let us know.

Meanwhile, holiday greetings and best New Year's wishes to you from all of us, as per attached.

incl. Forum leaflet

Denyse Barbet
